OBJECTIVE

A motivated and detail-oriented graduate seeking to begin my professional journey as a Graduate Apprentice at Syniverse, where I can apply my academic knowledge, develop industry-relevant skills, and gain hands-on experience across multiple business and technology functions while contributing meaningfully to organizational goals.

SKILLS AND INTERESTS

Languages & Libraries	python, pandas, NumPy, matplotlib, Sklearn
Tools & Visualizations	excel, tableau, visual studio, Google colab
Database	MySQL
Data & AI	Data Analysis, Machine learning, Supervised & Unsupervised Learning, Reinforcement learning
Version Control System	Git, GitHub
Soft Skills	critical thinking, data-driven decision making, team management

EDUCATION

MEGHA INSTITUTE OF ENGINEERING AND TECHNOLOGY FOR WOMEN Nov 2022 - Present
Bachelors of Technology in Computer Science Engineering | CGPA: 8.45

SANTHINIKETHAN JUNIOR COLLEGE April 2020 – May 2022
Intermediate | CGPA: 7.17

VISION HIGH SCHOOL March 2020
SSC| CGPA: 9.95

EXPERIECNE

SOFTWARE DEVELOPMENT INTERN | Datapoint Info Solutions,Hyderabad. March 2024 – Jun 2024

- Developed and tested backend web modules using Node.js and Django**,** gaining hands-on experience in API development, server-side logic, and database integration.
- Successfully completed internship projects within deadlines, delivering original work and receiving positive performance evaluation from the organization.

CERTIFICATIONS

Digital marketing course certificate from GOOGLE

Basics of python completion course certificate from INFOSYS

Artificial Intelligence course certificate from ACCENTURE

Applied Data Science with Python certificate from COGNITIVE CLASS.AI

Generative AI for Software Development completion certificate from IBM

Data visualization using Python certificate from IBM

PROJECTS

WEAPON DETECTION USING ARTIFICIAL INTELLIGENCE

Due to growing demand in the protection of safety, security and personal properties, needs and deployment Of video surveillance systems can recognize and interpret the scene and anomaly events play a vital role in Intelligence monitoring.

Benefits are its Enhanced Accuracy, Increased Efficiency,Proactive Prevention, Continuous Improvement .

Technology stack : Python, HTML, CSS , Nodejs

A REAL TIME CROWD DETECTION AND MONITORING SYSTEM USING MACHINE LEARNING

Built a YOLOV5-based vision system to detect,count,and monitor crowds in real time with automated safety Alerts.
Helps ensure public safety by detection overcrowding in real time and enabling quick response.
Technology stack : Python,Open CV,YOLOv5,Machine Learning Algorithms
